

TC Generator and User Story Reviewer – Single Page

Connect Jira and Fetch User Story –

The screenshot shows the 'TC Generator and User Story Reviewer' application interface. The header is dark blue with the title 'TC Generator and User Story Reviewer' and a 'Light Mode' toggle. Below the header, there are two main sections: 'SECTION 1: User Story Reviewer' and 'SECTION 2: TC Generator'.

SECTION 1: User Story Reviewer (Jira ready)

- Buttons: 'Connect Jira', 'Fetch Stories'
- Form fields: 'Jira Base URL' (https://bhavan728.atlassian.net/rest/aj) and 'Story ID' (US-24)
- Status: 'Jira connection successful. You can fetch stories now.'
- Stories list: 'Showing 1-5 of 9 stories'. Two stories are visible:
 - US-24**
Title: AHC Reports Reports AHC
Summary: As a user, I want to ahc reports reports ahc so that the related functionality works as expected.
Acceptance Criteria: Given reports exist in the system, when a user views or generates a report, then the report should display accurate and up-to-date information.
 - US-22**
Title: Masters Others Approval Setup
Summary: As a user, I want to masters others approval setup so that the related functionality works as expected.

SECTION 2: TC Generator (Langflow ready)

- Text: 'Enter a user story to generate test cases'. Example: 'As a customer, I want to reset my password so that I can sign in again without support.'
- Buttons: 'Generate Test Cases', 'Clear', 'Copy'
- Text: 'Ready to help. Type a user story and the assistant will build a testcase set.'
- Generated Testcases: 'No testcases generated yet.' (Export CSV button)

The screenshot shows the application interface with the 'Generate Review' button clicked. The 'Review Result for US-24' is displayed.

US-22
Title: Masters Others Approval Setup
Summary: As a user, I want to masters others approval setup so that the related functionality works as expected.

Generate Review

Review Result for US-24

Section 1 - User Story Review Summary

- **Parameter:** Description | Score (out of 20)
- **Clarity:** The story is somewhat unclear due to repetitive and vague language. (12)
- **Completeness:** Preconditions and acceptance criteria are not well-defined. (10)
- **Business Value Alignment:** Strong healthcare relevance and compliance focus, but lacks specific patient safety benefits. (16)
- **Testability:** Can be tested through report generation and display functionality. (15)
- **Technical Feasibility:** Technically feasible with existing reporting infrastructure. (17)

Section 2 - Overall Score

70/100

Section 3 - Improvement Areas

- Clarify the story: Remove repetitive language and rephrase the description to focus on the core requirement.
