The screenshot displays a REST client application interface. On the left, a sidebar lists various collections under 'My Compliance Coverage Agent API', including 'Health & Config', 'Scraping', and 'Ingestion'. The 'Scraping' collection is expanded, showing endpoints like 'GET /scrapes/id (gdpr)'. The main panel shows a GET request to the endpoint 'GET /scrapes/id (gdpr)' with a URL template '({baseUrl})/api/v1/scrapes/({scrapeIdGdpr})'. The response is a 200 OK status, indicating success. The response body is a JSON object containing details about a scraped document, including its ID, status, regulation type, creation and completion timestamps, the number of records scraped, the output file path, source URL, content version, and retrieval timestamp.

The screenshot shows the Postman application interface. On the left, the 'COLLECTIONS' sidebar is expanded, showing a tree structure of collections. The 'Ingestion' collection is selected, and the 'GET /ingestions/id (eu-ai-act)' endpoint is highlighted. The main panel displays the details of the selected endpoint, including the URL, method (GET), and the response body. The response body is a JSON object with the following structure:

```
{  "id": "ing_8e99eadd-2828-4dad-ad96-26be68dc8799",  "status": "running",  "regulation": "eu-ai-act",  "createdAt": "2026-08-16T17:52:02.935Z",  "startedAt": "2026-08-16T17:52:02.935Z"}
```

The status bar at the bottom indicates a successful response (200 OK) with a response time of 6 ms and a body size of 551 B.

This screenshot shows the same Postman interface as the first one, but with a more detailed JSON response body. The response body is a JSON object with the following structure:

Why it matches: This clause addresses the requirement by specifying the obligations that distributors must comply with when making a high-risk AI system available on the market.

2. Where a distributor considers or has reason to consider, on the basis of the information in its possession, that a high-risk AI system is not in conformity with the requirements set out in Section 2, it shall not make the high-risk AI system available on the market until the system has been brought into conformity with those requirements. Furthermore, where the high-risk AI system presents a risk within the meaning of Article 79(1), the distributor shall inform the provider or the importer of the system, as applicable, to that effect.
