

Mongo mcp installation –

This screenshot shows the initial installation of the MongoDB MCP Server extension in VS Code. The left sidebar displays the Extensions Marketplace with the 'MongoDB Model Context Protocol Server' extension selected. The main editor shows the extension's details, including its identifier 'io.github.mongodb-js/mongodb-mcp-server' and version '2.1.0'. The terminal window at the bottom shows the following logs:

```
2026-09-17 19:09:02.898 [info] Connection state: Starting
2026-09-17 19:09:02.899 [info] Connection state: Running
2026-09-17 19:09:04.717 [warning] [server stderr] npm warn exec The following package was not found and will be
installed: mongodb-mcp-server@2.1.0
2026-09-17 19:09:07.903 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:09:12.902 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:09:17.912 [info] Waiting for server to respond to 'initialize' request...
```

The right sidebar shows a Swagger AI agent test failure for a 404 status code, with a note that the test failed twice.

This screenshot shows the configuration and startup of the MongoDB MCP Server extension. The left sidebar displays the extension's details, including its identifier 'io.github.mongodb-js/mongodb-mcp-server' and version '2.1.0'. The main editor shows the extension's configuration, including the MongoDB connection string or Atlas API credentials. The terminal window at the bottom shows the following logs:

```
2026-09-17 19:10:07.901 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:10:12.913 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:10:17.901 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:10:22.901 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:10:27.903 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:10:32.912 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:10:37.900 [info] Waiting for server to respond to 'initialize' request...
2026-09-17 19:10:42.905 [info] Waiting for server to respond to 'initialize' request...

```

The right sidebar shows a Swagger AI agent test failure for a 404 status code, with a note that the test failed twice.

Listing Collections and DB

The screenshot shows the Visual Studio Code interface with the MongoDB MCP server connection window open. The window displays the following information:

- Database:** FV0x3td1NvxHw4
- Found 4 databases. Now let's list collections in each (skipping the internal `admin`/`local` system ones, but I'll check those too for completeness).**
- Mongodb [list-collections]**
 - OUT: `{ "collections": [{"name": "multimodal-embeddings"}, {"totalCount": 1}] }`
- Mongodb [list-collections]**
 - OUT: `{ "collections": [{"name": "embedded_movies"}, {"name": "movies"}, {"name": "users"}, {"name": "comments"}, {"name": "theaters"}], "totalCount": 5 } }`
- Mongodb [list-collections]**
 - OUT: `{ "collections": [], "totalCount": 0 } }`
- Mongodb [list-collections]**
 - OUT: `{ "collections": [{"name": "oplog.rs"}, {"totalCount": 1}] }`
- Connected to your MongoDB Atlas cluster. Here's the full inventory:**

Database	Size	Collections
MultiModalEmbeddings	~5.2 MB	multimodal-embeddings
sample_mflix	~151.8 MB	embedded_movies, movies, users, comments, theaters, sessions
admin	—	(none, system db)
local	—	oplog.rs (replication log, system db)

sample_mflix is MongoDB's standard sample movie dataset, and *MultiModalEmbeddings* looks like a custom collection you've built for embeddings. Let me know if you'd like to inspect a specific collection's schema, document counts, or sample data.
